

CAEP Annual Report, 2025
Measure 3. Candidate Competency at Program Completion

Candidates enrolled in preliminary (initial) licensure programs at Western are rated using Western Oregon University's Readiness measure. The Readiness tool is designed to assess candidate progress toward licensure-ready levels of performance relative to the InTASC standards. Data below is the most recent data available for candidates enrolled in Western programs. This is a new measure for Western and only one year of data is available. Passing score in each program is 69.
