Re: Call for Campus Master Plan Steering Committee faculty members

The Campus Master Plan Steering Committee (CMPSC) is an advisory group consisting of representation from faculty, classified staff, unclassified exempt staff, students and administrators. Committee members are expected to represent their constituencies while applying a university wide perspective to the development of the campus master plan.

The committee will meet monthly starting in December, 2017 and meet through the end of June, 2018. Links to past plans are here: <http://www.wou.edu/plant/planning-department/>

The CMPSC will have four faculty members and the Faculty Senate Executive Committee is charged with gathering the names of interested faculty and forwarding four to six names to President Fuller.

Interested faculty should submit the following information:

1. Name
2. Rank
3. Department / Program and Division
4. Years at WOU
5. An explanation of your interest in serving on the Campus Master Plan Steering Committee, and strengths and experiences that you believe will make you an effective CMPSC member.

Please submit this information directly to the Faculty Senate President (Adele Schepige) by 5 p.m. on Tuesday, November 21, 2017 for Faculty Senate Executive Committee's consideration on November 22.
