

- The General Education Committee (GEC) met last week and reviewed about 50 proposals for the Foundations categories, which have been moved on in the curriculum process. If you have any questions, at any point in this process, please do reach out to either Erin Baumgartner or Breeann Flesch.
- The deadline for getting proposals for the Exploring Knowledge categories to the GEC is November 13th. Please note that this means that these proposals will need to have cleared your division chair and division curriculum committee by then, so do allow time for your division colleagues to review the proposals.
- As you are filling out these forms, please provide ample details for how your class meets the content criteria for the category. This information is the primary means for which the GEC makes its decisions on inclusion in the category.
