Summary/Rationale for proposal

As stated in the current catalog for the Early Intervention/Special Education II Endorsement , "This program is being discontinued, as of the beginning of Summer term 2019 and is not accepting new students". We are requesting that this be deleted from the new catalog as this endorsement has been sunset through TSPC and will no longer be offered at WOU.

Program or Requirement Title
Description

Early Intervention/Special Education II Endorsement

This program is being discontinued, as of the beginning of Summer term 2019 and is not accepting new students.

Mission

To train and prepare teachers in the special education needs of children from birth to age eight and to teach strategies for meeting those needs.

Learning Outcomes

1. Apply practical knowledge in the education of infants and toddlers, preschoolers and primary aged children.
2. Be thoroughly familiar with children's developmental patterns and open to innovative ways of maximizing these pupils' potentials.
3. Have the specialized knowledge, skill and attitudes needed to collaborate with parents and professionals to promote the needs of the child.

The EI/SE programs incorporate standards based on developmentally appropriate practices (National Association for the Education of Young Children) and recommended practices (Council for Exceptional Children-Division for Early Childhood). Professional practices guide the WOU EI/SE students in their acquisition of knowledge and skills in following key areas of direct services:

- Assessment
- Child-focused practices
- Family-based practices
- Interdisciplinary models
- Technology application
- Application of recommended practices of program assessment and improvement

Students complete the EI/SE programs prepared to serve as specialists and leaders in the field of Early Intervention/Early Childhood Special Education.

Core Courses

The EI/SE II is a stand-alone licensure program for those without a teaching license. The 45 credit hour initial license/endorsement

program includes a 15-credit early intervention core (including practica), a nine-credit special education core, a nine-credit early childhood education core and a 12-credit final supervised field experience (student teaching). The six-credits of practica in the early intervention core and the 12 credits student teaching experience will result in practical application knowledge with infants and toddlers, preschoolers and primary aged children.

Additional graduate coursework can be taken for standard or continuing licensure requirements and includes advanced coursework in special education and/or early childhood education as determined with an adviser and can be part of a Masters of Science in Education: Special Education program.
