C10651	CH 551 Biochemistry II	New	Approved
C10844	HST 546 Pandemics and Crises in Latin America	New	Approved

2. Shared Governance Summit

In the past two years, we've tried to coordinate shared governance meetings on 5th Tuesdays. These meetings have included faculty and staff union presidents, faculty and staff executive committees, ASWOU leadership, and members of the President's cabinet. To make these meetings more predictable and increase attendance, we're going to have them take place on ***the second Friday of the second month of each term***. Our hope is that these meetings will be a place for increased communication and a renewed commitment to shared governance.

The first meeting will take place on **Friday, February 12 from 10-11:30; the topic will be WOU: Salem**. Sue Monahan and Michael Smith will both be presenting.

Submitting questions via [this Google Form](#) are due no later than **Friday, January 29**.

3. Service Positions Filled

Thank you to everyone who volunteered to fill our service needs. All our open seats are now filled. We appreciate and all benefit from the leadership and contributions of our colleagues.
