

Reduced Course Load (Medical Condition)

International students are allowed to register for less than a full course load (undergraduate: 12 credits, graduate: 9 credits) anytime during their program of study for a maximum duration of 12 months. **A medical physician or a licensed clinical psychologist must provide an official letter of recommendation on physician letterhead in addition to completing this form.**

*Regulation Source: 8 C.F.R. § 214.2(f)(6)(iii)(B) **Medical conditions.*** The DSO may authorize a reduced course load (or, if necessary, no course load) due to a student's temporary illness or medical condition for a period of time not to exceed an aggregate of 12 months while the student is pursuing a course of study at a particular program level. In order to authorize a reduced course load based upon a medical condition, the student must provide medical documentation from a licensed medical doctor, doctor of osteopathy, or licensed clinical psychologist, to the DSO to substantiate the illness or medical condition. The student must provide current medical documentation and the DSO must reauthorize the drop below full time for each new term, session, or semester. A student previously authorized to drop below a full course of study due to illness or medical condition for an aggregate of 12 months may not be authorized by a DSO to reduce his or her course load on subsequent occasions while pursuing a course of study at the same program level. A student may be authorized to reduce course load for a reason of illness or medical condition on more than one occasion while pursuing a course of study, so long as the aggregate period of that authorization does not exceed 12 months.
