

Step-by-Step Guide

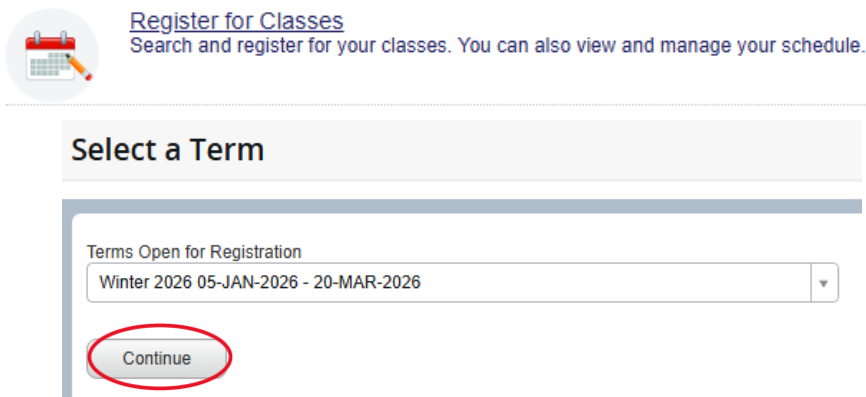

Manual Registration with a CRN (For Overrides and Special Enrollment)

Important Note: Using this manual registration method requires that you know the exact Course Reference Number (CRN) for the class(es). You must utilize this option if you have been granted a **registration override** to register for a class(es).

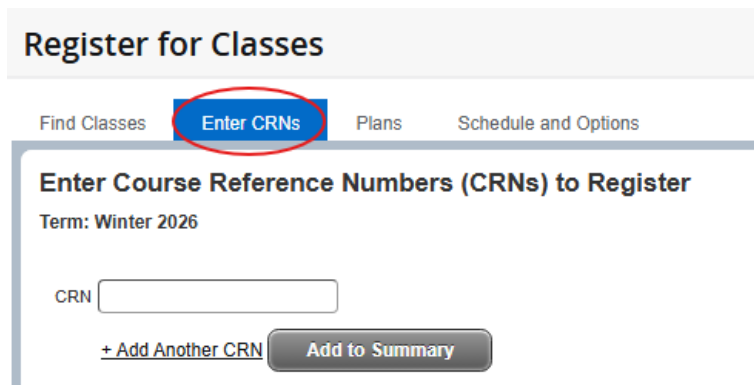

From your student **Portal**, open **Experience**, navigate to the **Registration Menu** card, and then click **Register For Classes**.

In the **Registration** area, click **Register for Classes**, then **Select a Term**, and click **Continue**.

Once in the **Register for Classes** area, click the **Enter CRNs** tab to manually enter the CRN of the class(es).

You must know the CRN for the class(es) you intend to register for.

- **Important Note:** If the class requires both a lecture and a lab section, you must register for both simultaneously. Enter the first CRN, click **+Add Another CRN**, enter the second CRN, and then click **Add to Summary**.
