## Timeline of Actions in the Current Cycle

# Recommendations

1

Establish and maintain a consistent, ongoing system for planning, evaluating, and improving all aspects of the university, with a clear focus on student learning and achievement.

Essentially, it's about demonstrating a culture of continuous improvement through structured processes and data-driven decision-making.

3

Modernize and optimize its operations using higher education best practices and technology.

This includes ensuring adequate staffing, fully utilizing technology platforms, and providing effective staff training.

Adaptation of the Bersin by Deloitte's (2012) High Impact Learning Organization (HILO) Maturity Model.

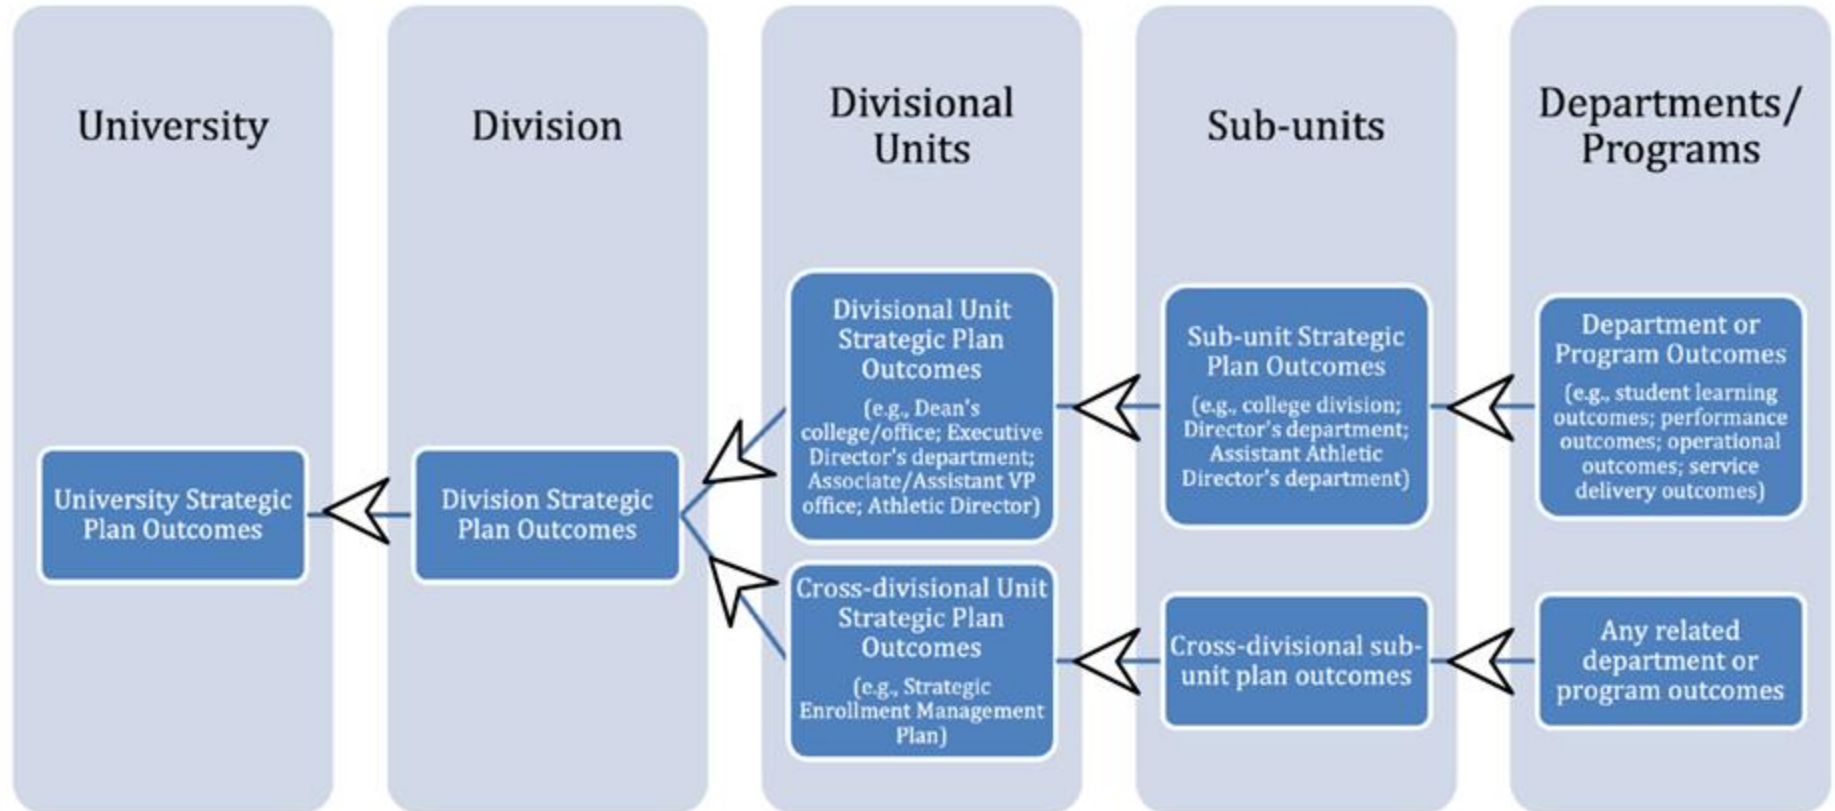

What is WOU doing to address Recommendation 1?

How will we evaluate  
the institutional  
strategic plan to inform  
improvement??

**Key:**

**Plan:** Develop unit strategic plan including outcomes for each goal as well as measures or evidence that will be used to inform the assessment of each outcome. Establish a logic model to monitor the dynamics of resource allocation, strategies, tactics, interventions, or initiatives and outcomes to inform decision-making and a project plan with roles and responsibilities to collect, assess, report, and implement changes for ongoing improvement. Align sub-unit outcomes to unit outcomes and establish a timeline for assessment that informs the assessment of University Strategic Plan Outcomes.

**Do:** Initiatives will be implemented and outcome evidence will be collected and summarized, and compiled for review

**Check:** evidence will be assessed relative to the outcome resulting in some interpretation of the ways in which the outcome is being realized and implications for improvement in support of maximizing the impact and achieving the aligned goal. Implications will be prioritized and recommendations will be shared to determine alignment with available resources and/or requests for resource allocation or reallocation.

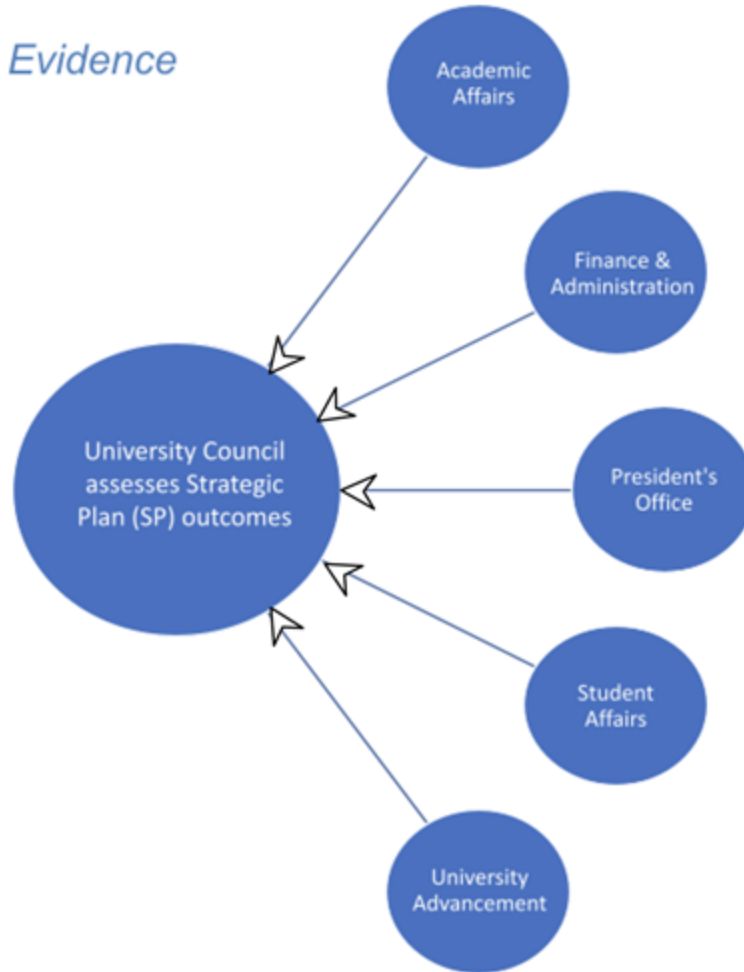

**Act:** Any recommendations accepted and funded will be implemented and the assessment cycle continues

**Step 2.**  
Determine the timeline for which institutional outcomes will be evaluated to inform evidence collection.

### Step 3.

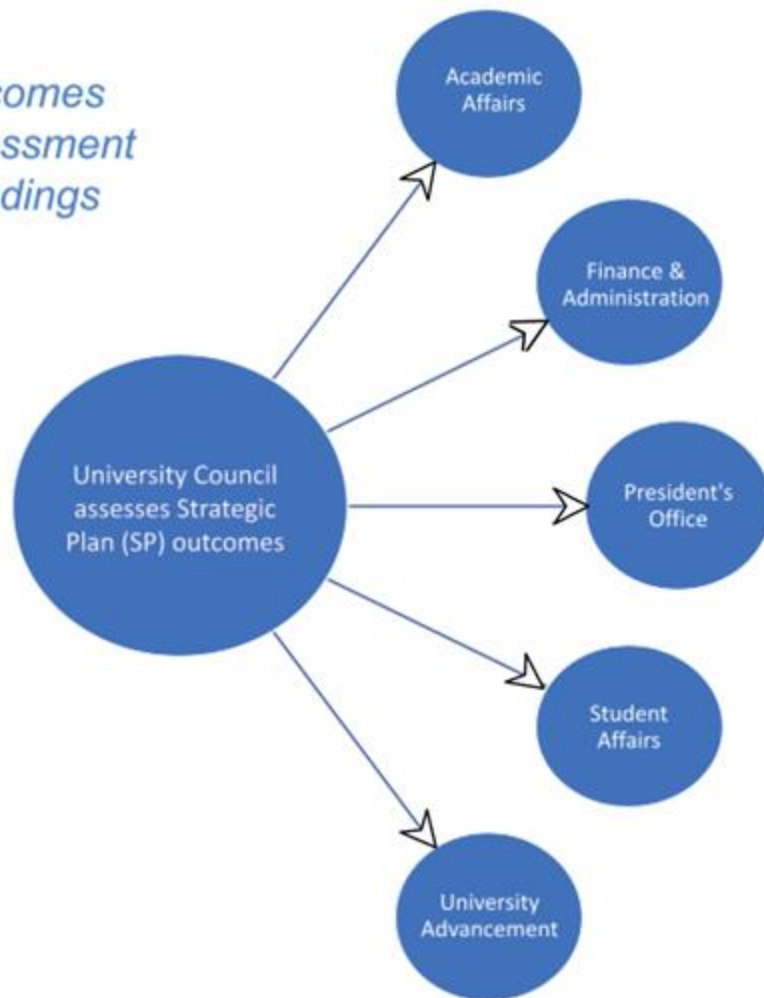

At the institutional level, University Council collects evidence of outcomes aligned to selected institutional plan outcomes from the University Divisions.

#### *Collecting Evidence*

Division SP outcome assessment reports inform assessment of University SP outcomes.

## *SP Outcomes Assessment Findings*

University Council SP Outcome Assessment Report including recommendations for improvement goes back to the Divisions to inform planning and implementation of accepted recommendations.

The findings could be used to inform improvements in:

- Divisional Strategic planning
- Resource allocation processes
- Usefulness of current measures and/or identifying more appropriate evidence
- Outcomes assessment processes
- Institutional support/infrastructure

**Step 4.** Based on evaluation of outcomes at the institutional level, University Council makes recommendations for improvement to the institutional plan and divisional units
